

## Meta House Annual PREA Report – 2019

### Overview

Meta House has a contract with the Department of Corrections to fund residential treatment for 12 women in Meta House’s main campus residential facility. Because of this contract, Meta House is subject to the Prison Rape Elimination Act (PREA), which is designed to prevent and address sexual harassment and sexual abuse in correctional institutions. As such, we are required to report annually on PREA investigations and reports. Please note that the following data applies only to clients served under Meta House’s contract with the Department of Corrections.

[Agency Progress in Addressing Sexual Abuse](#)

Meta House had only one report of sexual harassment relating to DOC clients, and this was found to be unfounded. During 2019, our first PREA audit was completed, and the next one will be scheduled for 2022. Updated policies, procedures, forms, and training materials to further educate and protect clients from sexual abuse and harassment were put into place following the audit report. The agency continues to train staff, volunteers, and clients on identifying and reporting sexual abuse and harassment.
