

You and a guest are invited to Meta Moments- Milestones toward Recovery

When a woman comes to Meta House a team of counselors, family members, and supporters meets with her to map out a plan, helping her to succeed in her drug and alcohol treatment goals. Earning her first weekend pass home, enjoying visitations with children not in her care, obtaining her GED, moving into safe and affordable housing and securing employment – all of these accomplishments are milestones towards a woman's new life in recovery.

At Milestones toward Recovery, learn how Meta House helps women to meet these goals in their journeys to recovery, and hear from a graduate who has been successful because of this support.
