It has long been the dream of Meta House to provide its drug and alcohol treatment services from one campus. The opportunity presented itself early this year when a school became vacant adjacent to our Residential Women and Children's Program providing us space for our outpatient program, child care and administrative offices currently located on Milwaukee's East Side.

(Directions: The building is located just north of the corner of Weil and Clarke. Enter into the parking lot, behind the building, where you will see the entrance to Meta House.)
