

# Meta House Changing Lives, Changing Milwaukee Gala

For the past 25 years, Dr. Francine Feinberg has led Meta House's charge to help women

suffering the effects of drug and alcohol abuse. Through advocacy, treatment and other services that meet their unique needs, these women gain the hope and confidence to reclaim their lives.

Under Dr. Feinberg's direction, the agency has saved the Milwaukee community more than \$511 million in costs that likely would have been incurred in the agency's absence.

Find out more at [www.metahouse.org](http://www.metahouse.org).

Join us for a special event honoring Executive Director Francine Feinberg and celebrate the lives that have changed and blossomed through Meta House's dedication to this community.
